CARRIE MORTIMER.

This Was a Good Husband.

Tothe Editor:
I know of one husband who bore that relalon for a few years only, but whose loving and kind management of his young wife will never be forgotten by her, as well as thos who knew him. He was a husband in whom als wife found a mountain of strength concealed in his loving touch and ever ready advice. When their baby lay sick unto death he was the one to comfort her and watch with her the long, weary nights, doing all in human power to alleviate the sufferings of their little one, and when the crisis was sately passed, and the doctor pronounced it out of danger he was the first to kneel and offer up a prayer of thanksgiving which her heart was too full to utter. And when this husband was taken sick and lay for weeks upon a bed of terrible suffering his thoughts were only of his wife; ever patient never complaining until he found relief in eternal sleep.

Be just and be generous, tender and true to the woman you chose as your whie; A well spring of pieasure, of joy ever new, She will prove to the end of her lite.

To the Editor The husband must have no secrets from his wife. Of course, she must not be harassed with the little details of business, but whe a change takes place not for the better she must be told at a good time. No man should make light of his wife's opinion, for in the time of trouble they have usually greater instinctive judgment. Husbands should give their wives an allowance for household expenses, and for the expenditure he should not call her to account unless for some good reason. She should also have an allowance for dross within which limits she ought always to restrict her expenses. to restrict her expenses.

Careful Attention. Another great free lecture in Chickering Hall.

And to our mind one of the grandest, most interesting and, at the same time, most instructive lectures to which the people of New York and vicin-ity have been treated for a long time. But it has got so that we always expect something of far more than ordinary interest and attraction when Dr. Greene, the well-known and eminent physician of 35 West 14th st., New York, an-

nounces a course of his magnificently illustrated lectures, for both Dr. Greene and his lecture courses, each fall and spring, are among the estab-lished institutions of our city.

Dr. Greene is conferring great benefits upon the community by these free lectures, which, while he makes them of the most absorbing interest to the great audiences invariably present, contain as well a deep fund of valuable instruction and informa-

He has de-roted his life to the thorough knowledge and understanding of these diseases, which include those troubles and ailments of a lingering nature affecting the blood, nerves, stomach, throat and lungs, heart, kidneys, liver, bowels and other crgans, and teen districts or centres of the London Board which the ordinary family physician or general practitioner among acute fevers, accidents, &c., has neither the time, facilities nor inclination to

In curing this class of diseases Dr. Greene has been eminently successful-so successful, in fact, that he at the present day has, without doubt, the largest practice of any physician in the world. His discoveries of wonderful and remarkable curative lute certainty with which he perfectly and conpletely cures the large majority of cases who apply to him for treatment, have made his name known and his skill understood not only all over the United States, but his reputation has brought

ferers from disease is the fact that Dr. Greene can be consulted free of charge. He never under any circumstances makes any charge for advice and consultation, either when the patient calls per-sonally or writes for such advice.

The Doctor believes that patients should not be burdened with the payment of fees, that it is for treatment only which the sick should have to pay— that is, for the medicines necessary to effect the cure. For this reason his consultations are en-tirely and absolutely free to all, and as he manufactures at his great medical laboratory all the marvellous remedies and preparations which are diseased to health, he furnishes them to those who
